Please join our team of experts at an educational and celebratory event to launch UC San Diego’s new Center for Integrative Medicine!

Overview:
Attendees begin the day in evidence-based lectures, and spend the afternoon engaged in interactive panel discussions and hands-on workshops.

Highlights:
- Discover the latest research on integrative medicine modalities at UCSD
- Network with UCSD faculty and staff as well as practitioners from the community
- Participate in interactive workshops/hands-on applications of integrative medicine
- Earn 7.5 continuing medical education credits

At the end of this CME activity, participants should be able to:
- Describe the research supporting integrative medicine at UCSD
- Apply integrative philosophies to improve patient care
- Recommend appropriate complementary, integrative services to patients
- Translate research into actionable plans
- Discuss the need for and benefits of integrative education and clinical research

The University of California, San Diego School of Medicine designates this live activity for a maximum of 7.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. The University of California, San Diego School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

This activity is in compliance with California Assembly Bill 1195 which requires continuing medical education activities with patient care components to include curriculum in the subjects of cultural and linguistic competency. Cultural competency is defined as a set of integrated attitudes, knowledge, and skills that enables health care professionals or organizations to care effectively for patients from diverse cultures, groups, and communities. Linguistic competency is defined as the ability of a physician or surgeon to provide patients who do not speak English or who have limited ability to speak English, direct communication in the patient’s primary language. Cultural and linguistic competency was incorporated into the planning of this activity. Additional resources on cultural and linguistic competency and information about AB1195 can be found on the UCSD CME website at http://cme.ucsd.edu.
